

Quoting from Letter by US Controller- General, Dr. Abdul Basit Announces more than \$9b Vaguely Disbursed

BSA-media center- BSA's president, Dr. Abdul Basit T. Saeed, received a letter from the US Secretary of Defense Assistant (the financial controller) concerning the Iraqi funds which were received by the US parties post occupation. The letter came after two apologies made by the US Department of Defense to the Board of Supreme Audit for not sending its representatives to attend the IAMB's meeting called for by the Iraqi side. The letter content did not explain how these funds, which are tentatively estimated by 9.1billion USD, were disbursed, and, for more than five years, the Board has been pursuing a reply to the query of how and where the said Iraqi funds have been spent since May 22, 2003.
