"The BSA comes up with new findings on double stipend persons-related audit"

The Board of Supreme Audit has issued a new report on the findings related to cross audit conducted on officials and pensioners with double income. The audit report included 5274 cases in the Social Protection Network, 2263 cases in the Labor and Vocational Training Department loans, 1500 cases in the Pension Department and 224 inter-ministry and non-ministerial cases.

Some ministries have undertaken to take legal procedures against the violators, the results of which will be published in detail later by the Board on its website.
