

On One hour delivery-basis, Samaraa State Company for
Drugs Industry Import Chemicals !!!

During its 26th session held in the Board's headquarters, and while reviewing a number of financial statements related to some ministries, the audit council of the Board of Supreme Audit has found out that Samaraa State Company for Drugs Industry awarded, under the Trading Section letter No. 17 DTD 12/1/2010, a requisition for Sodium Hydroxide to Lama'an Al-khaleej Trading Co. and public trading agencies at 14 million IQD.

According to the above mentioned letter, the delivery of the said item was made within an hour, which is illogic reflecting non-prudential procedures as well as conspicuous deficiency in the procurement department, not to mention that the material is an imported commodity purchased from domestic market.
