

((Establishing Technical Administrative College in Thee Qar ))

In the presence of the BSA representative, sectorial committee of the financial and accounting specialties of the Technical Education Commission held a meeting at BSA headquarters on Monday, May 30, 2011 headed by Dr. Ibrahim alsubury, Dean of Technical Administrative College /Kufa University.

During the meeting , curriculums updating and developing plan and the study presented by the technical institute /Nasiriyah concerning establishing technical administrative college in thee qar were discussed.

Besides, the board representative discussed developing the costs systems of public sector companies and updating theoretical aspect of costs accounting due to its important role since there is a gap between the theoretical aspect of the academic study and the actual state of the public sector companies.

They also discussed developing scientific laboratories because they are related to the public manufacturing companies; and discussed writing a book concerning governmental accounting by the Technical Institute / Ninwa, and adding a new topic about electronic audit in the Technical Administrative College /Basrah .The board representative demonstrated the Board's experience in this field.
